Personnalised Chip

How it works?

The personalised chip works the same way as a normal phone chip, but provides marketing effect and supports your cause.

Benefits:

- The phone chip can be easily customised to your company logo
- A gift for employees & clients
- The ideal promotional product for your company.

Fridge Fresh

How it works?

Fridge fresh is a simple sticker that sticks on the inside of your fridge or in an open space area with a fruit basket, food display and on shelves.

Benefits:

- Fruit, vegetables and salads stay fresh for longer.
- Less use of plastic and therefore less food wastage.
- You save money!

Become motor
of the ecological
transition
